

Implement a program on Multiple Inheritance with Interface

```
class MultInherit{
public static void main(String args[])
{
Pig a=new Pig();
a.animalsound();
a.sleep();
}
}
interface Animal{
public void animalsound();
public void sleep();
}
class Pig implements Animal{
public void animalsound(){
System.out.println("The Pig says: wee-wee");
}
public void sleep(){
System.out.println("zzzzzzzzz");
}
}
```

```
C:\Windows\System32\cmd.exe
Microsoft Windows [Version 10.0.22621.2428]
